

Introducing Lenderink Technologies New Distributor in USA Experts at new product development

ROWAK AG is pleased to announce the enlargement of its North American distribution network with Lenderink Technologies located in Belmont, Michigan.

Lenderink, a company that provides specialized solutions for more than 50 years to cover markets such as wood veneers, coating and backing machinery, acoustic and thermal insulations, honeycomb, papers, backers, automotive interior finishes and many more.

Lenderink Technologies has a strong reputation for always reaching for innovative products to meet the needs of the client. "ROWAK AG and Lenderink Technologies have similar vision and a clear understanding of how the companies working together will be beneficial for the end users." says Tom Lenderink, President at Lenderink Technologies. "This is going to be great for both companies and our mutual customers. Lenderink Technologies has a talented, professional team that knows our products and has a great reputation in the industry." says Jens Roettges, Board Member at ROWAK AG, Switzerland.

Lenderink would be happy for you to visit the Lenderink Lake Lodge, Showroom, Archival and Sample Area as well as the Extensive Lab and Prototype Area.
